SUMMARY

B.Tech. Artificial Intelligence & Machine Learning student with a strong foundation in computer engineering and hands-on experience in software development. Passionate about AI/ML, problem-solving, and building practical solutions. Experienced in working with programming, web technologies, and technical projects, with a strong focus on learning, experimentation, and continuous improvement.

EDUCATION

SMDR Government Polytechnic Dhule	2023 - 2026
Diploma in Computer Engineering in Computer Engineering	GPA: 95.35%
Walchand Collage of Engineering Sangli	2026 - 2029(expected)
B.Tech in Artificial intelligence and Machine Learning in AI and ML	

EXPERIENCE

Sumago Infotech Pvt Ltd, Nashik	Jun-Aug 2025
DS and AI ML using python Intern	Nashik , Maharashtra
-Developed VAWAR, an AI-driven solution addressing challenges in weather, agriculture, and resource management. -Applied AI/ML concepts to design and implement practical solutions. -Worked on problem-solving, data analysis, and software development throughout the project. -Recognized with Project Excellence and Performer of the Batch awards.	
Param Electroinfo Pvt. Ltd. Nashik	Jun - Dec 2026 (6 months)
Software Developer Intern	Nashik , Maharashtra
-Developed and maintained software applications using Python and modern development tools. -Worked on data structures, data processing, and application logic to build practical solutions. -Debugged and optimized code, improving functionality, reliability, and performance. -Collaborated with team members to understand requirements and implement technical solutions. -Gained hands-on experience in software development, problem-solving, and real-world project workflows.	

PROJECTS

[VAWAR - Versatile Ai for Weather, Agriculture and Resources](#) | Flutter , Python , Firebase , Tensorflow

- Developed VAWAR (Versatile AI for Weather, Agriculture & Resources), an AI-driven solution addressing real-world challenges in weather and agriculture.
- Applied AI/ML and data-driven techniques for analysis, prediction, and decision support.
- Designed and implemented the solution with a focus on practical usability and real-world impact.
- Achieved Top 3 at the National Level and Rank 1 at the State Level in project competitions.
- Also make a website for it for Deomonstration. [Click Here to watch demo.](#)
- Recognized with Project Excellence and Performer of the Batch awards.

PROJECTS

Expense Tracker: Dart, Flutter, Firebase, OCR, AI/ML, Git, GitHub, Android Studio, Gradle.

- -Expense Tracker is a Flutter-based personal finance application designed to help users manage and monitor their expenses.
- -Provides expense tracking, budgeting, recurring expenses, and financial reports.
- -Uses OCR to scan receipts and simplify expense entry.
- -Includes AI-powered insights and forecasting for better financial decision-making.
- -Supports bank statement import, cloud synchronization, data backup/export, and notifications.
- -Uses Firebase and Cloud Firestore for authentication and cloud data management.

TECHNICAL SKILLS

Languages: C , C++ , Python , Java , dart

Frameworks: Android SDK , Flutter , React.js, Next.js, Node.js, Flutter, FastAPI, TensorFlow, Scikit-learn, OpenCV Databases:

PostgreSQL, MongoDB, SQLite

Developer Tools: Git, GitHub, Docker, VS Code, Postman, Figma

ACHIEVEMENTS

- Project Excellence and Performer of Batch during Implant Training.
- 3rd Prize at National Level project-Expo.
- 1st Prize at State Level Project competition.
- Rank 231 in NEC IIT Bombay Challenge(among 3500+ teams).
- Completed AI Fluency Career Path on MS Learn.
- 5+ Sololearn Certifications
